**Official Sources of Legislation**  
 Statutes of Saskatchewan - 1906 to 2003 annual bound volumes  
 Revised Statutes \* - 1909, 1920, 1930, 1940, 1953, 1965, 1978  
 First reading bills - may be amended in committee before the final reading  
 Chapters - After assent, bills are given chapter numbers and are accumulated for each session to be bound in the annual Statutes of Saskatchewan

\*Revised Statutes are created when most of the body of legislation is updated by renumbering, correcting minor errors and consolidating any amendments. Once this is complete, the revised statutes are proclaimed in force repealing all the previous statutes. Not all the statutes are revised at the same time. There are tables in the index volume of each set of revisions that show what has been included in the revision.
