Foreword

It has been difficult to trace the history of Saskatchewan statutes because the tables of statutes run only from one statute revision to the next. While there are tables included with each revision showing disposition of statutes, these tables are by year and chapter number and are thus awkward to use. Moreover, they only connect one revision to the revision immediately before it. Thus, tracing the history of legislation across revisions can be a laborious task.

This historical table traces Saskatchewan statutes by name, alphabetically arranged, from initial enactment through to the 1978 Revision, showing all amendments along the way, noting if and

when it has been repealed, and, if replaced on repeal, the replacement statute. The Law Society Library has formatted the information to be similar to that of the Legislative Table of Acts and Regulations published online by Publications Saskatchewan (formerly Queen's Printer), which begins with the 1978 Revision year and traces the same information to the present.

Using these two resources in combination completes the history of legislation in Saskatchewan. This will simplify historical research and provide an easier method for determining the law in force at any particular time.

ABANDONED REFRIGERATOR ACT *see also* PUBLIC HEALTH ACT, 1994

The Act prohibited leaving refrigerators and freezers outside a building unless the door or lid was removed. It allowed a peace officer to remove the door or lid and eliminated any cause of action by the owner. The Act was repealed by *The Public Health Act, 1994*, which authorizes the making of regulations by Cabinet and bylaws (subject to Ministerial approval) by local authorities (which are appointed by Cabinet) in relation to a range of general subject areas that could include dealing with abandoned refrigerators.

ABSCONDING DEBTORS ACT *see also* ENFORCEMENT OF MONEY JUDGMENTS ACT

The Act provided a procedure for obtaining an order to the sheriff to seize property of a debtor who was about to abscond from the province or who had attempted to remove property from the province in order to defeat creditors or who kept himself or herself concealed in order to avoid service. These procedures are replaced by the preservation order provisions of *The Enforcement of Money Judgments Act*.

Note: * Whereas several municipalities have issued or authorised the issue of debentures providing for the payment of certain works or undertakings, the date of maturity of such debentures being many years less than the estimated lifetime of the said work or undertaking;
And whereas several of the said works have been undertaken as local improvements, and assessments have been made under the provisions of the local improvement sections of the respective Act or Acts applicable thereto;
And whereas the issue of the said debentures on a short term basis causes an unduly heavy annual

charge upon the general tax rate of the municipality, and also, in the case of local improvement debentures, upon the properties charged;

And whereas it is deemed desirable that the burden of taxation should be distributed over the estimated lifetime of the various works undertaken in order that the burden may be equitably distributed over the period during which the work is in existence and beneficially utilised;

And whereas it is expedient that municipalities be authorised to pass new bylaws and make new assessments and levies thereunder providing for payment of the said work or undertaking during the lifetime thereof, and providing for the payment of outstanding debentures issued in respect to such work or undertaking at the date of the maturity thereof;

And whereas several municipalities have issued debentures providing for the payment of certain works or undertakings the date of maturity of such debentures extending beyond the estimated lifetime of such works or undertakings;

And whereas it is desirable that such works or undertakings should be paid for during the lifetime thereof and that a fund should be provided sufficient with accrued interest to meet the same within such lifetime. . .

MUNICIPALITIES RELIEF AND AGRICULTURAL AID ACT

This legislation was preceded by a number of pieces of legislation dealing with the topic which are indexed under the heading MUNICIPALITIES RELIEF. None of these Acts repealed former similar legislation. It was probably viewed as a temporary situation for a number of years before it was recognized that “permanent” legislation was necessary. As a result, the first series of Acts were simply ignored as obsolete and the 1937 “permanent” version was included in the 1940 Revision.

Whereas the ownership and control of all sources of surface water supply including lakes, marshes and swamps, in the Provinces of Alberta and Saskatchewan and in that portion of the Province of Manitoba added thereto by *The Manitoba Boundaries Extension Act, 1912*, are vested in the Crown in right of Canada; and

Whereas the unalienated public land within the boundaries of the Provinces of Alberta, Saskatchewan and Manitoba is similarly owned and controlled by the Crown in the right of Canada, while control of the drainage of land is vested in the Crown in the right of the several provinces; and

Whereas this divided jurisdiction has provoked controversy and has seriously interfered with the reclamation of submerged or swamp land and with the construction of highways, and has materially

retarded the settlement and development of districts comprising large areas of such submerged or swamp land; and

Whereas efforts have from time to time been made through informal conferences between representatives of the Dominion and of the several provincial governments, to devise some mutually satisfactory and uniform means of dealing with the drainage of Dominion land, and at a conference held at Regina in November, 1916, agreement was reached with respect thereto; and

Whereas the result of this conference was reported by the conferees to their respective governments with a recommendation that such legislation should be enacted as might be required to give effect to the aforesaid agreement; and

Whereas the Governor General in Council has approved of such agreement; and

Whereas it is expedient that provision be made by legislation for giving effect thereto in so far as the Province of Saskatchewan is concerned; ...

Whereas the general Commissioner for Canada in Paris has represented that the best war memorial to be raised in honour of Canadian soldiers who fell in France and Flanders would be the creation of a permanent home for Canadian students at the capital of France; and

Whereas it is necessary for the furtherance of this object that scholarships be established by the various provinces of the Dominion as their annual contribution to the proposed foundation; and

Whereas it will be to the advantage of the province to assist students and teachers, who intend to devote themselves to teaching in Canadian colleges and universities to follow post-graduate courses in Paris...
