

## Research Case Study

### Family Law

#### Scenario

A couple is divorced after 22 years of marriage. They have one adult child attending university, who lives with the mother, and has had no contact with the father for more than 5 years. The father claims that the mother has actively prevented contact between father and child, and would like to stop child support payments.

#### Exercise

1. Locate Saskatchewan case law authorities on point using Saskatchewan Cases, CanLII, and WestlawNext
2. Is there a relevant provincial statute or regulation?
3. Is there a relevant federal statute or regulation?
4. Are there any textbook sources in FamilySource? Irwin? Emond?

*Please review the research study guide instructions before beginning.*
