Why do we need reconciliation?

Spirit and Intent of Treaties

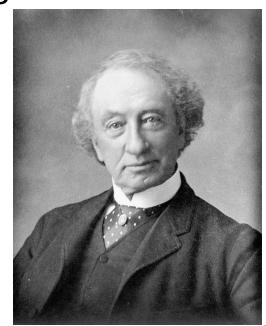

- Treaties are more than written documents, they maintain a permanent living relationship for all generations that is based on mutual benefit and recognition.
- Treaties were agreed to through ceremony, creating a sacred relationship.
- The process created a relationship of reciprocity; a kinship rooted in the worldview of the Indigenous Treaty partners.

What Happened?

The Indian Act - 1876

- Complete government control Indian Agent
 - Citizenship
 - Lands and resources
 - Cultural and spiritual practices
 - Governance systems
 - Penalties and permits for trade
 - Pass system 1885 to 1930
 - No legal council until 1950
 - Indian Act changed but still in place today

Canadian Assimilation Policies

- Indian Residential Schools
- Day Schools
- 60's Scoop
- Still today?

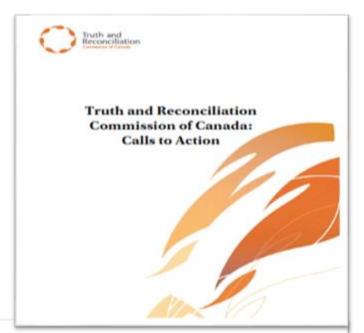

"When the school is on the reserve, the child lives with its parents, who are savages, and though he may learn to read and write, his habits and training mode of thought are Indian. He is simply a savage who can read and write. It has been strongly impressed upon myself, as head of the Department, that Indian children should be withdrawn as much as possible from the parental influence, and the only way to do that would be to put them in central training industrial schools where they will acquire the habits and modes of thought of white men" (Sir John A. MacDonald)

The ongoing legacy of an attempted cultural genocide:

- Language and Culture
- Health
- Justice
- Child Welfare
- Education

- Indian Residential School Settlement Agreement
- TRC was active from 2008-2015
- Broken up into Sections
 - Justice
 - 25-42
 - Equity for Aboriginal People in the Legal System

Why do we need reconciliation?

Justice

Three Strategies for Reconciliation and Treaty Implementation

1. Connect the right people

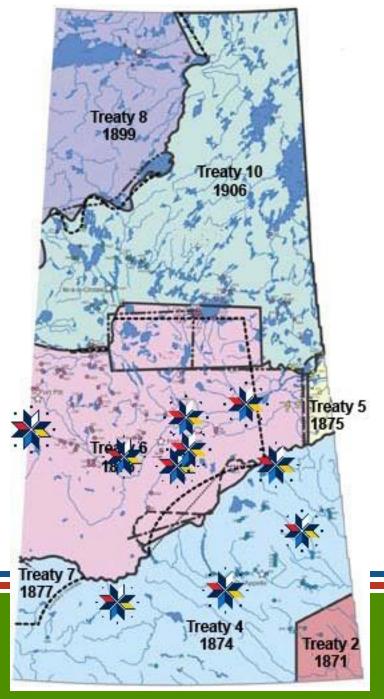

2. Pursue a shared vision for success

3. Inspire action, measure impact, and learn from our efforts

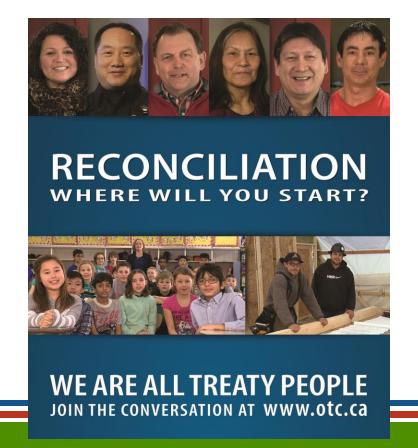

Strategy 1: Connecting people in our communities

• 10 Reconciliation Circles across the province

Measurement METHOD What is a possible path for growth?

- A logic model for determining a possible path that a given organization, person, and society can grow towards some of the outcomes identified in the indicator work
- A wide variety of circular paths
- Early days of the logic model...

INITIAL LESSONS

- As the Law Society is beginning the Reconciliation Mapping Exercise, a few initial reflections and lessons are emerging:
 - 1. The benefit of a structured process: it is beneficial to have guidance and support for reflecting on reconciliation, bringing a wider and more diverse perspective to the elements and means of reconciliation efforts;
 - 2. The need for preparation and time: preparing for the exercise has helped to drive thinking and commitment to how to approach reconciliation efforts as an organization and ensure time to drive participation and energy for the exercise from all corners of the organization; and
 - 3. The importance of information sharing: a key part of the process is reflecting on existing efforts and what has been done so far this encourages exchange that helps advance sharing of information and conversations and learning in new ways across the organization.
